Click here <https://a.co/d/dG7M6kl> to purchase the above product.

Use for: Flatfoot (pes planovalgus) deformity

How to apply: Remove the sole of your shoe. Cut the PowerStep orthotic to the same size as the sole. Use the PowerStep orthotic as the new sole of your shoe. Do this for both sides. We recommend you do this for all of the closed toe shoes you wear most commonly (sneakers, dress shoes for work).
